

BELFAST DAN

A creative *senior digital graphic designer* in ~~Belfast~~ Montréal.

Art with Me

Festival of Music, Arts and Culture

Art With Me is an international festival that celebrates the intersection of music, arts, and culture, offering immersive experiences designed to inspire and engage. With its six core pillars—art, music, cuisine, culture, wellness, education, and community—the festival creates vibrant spaces for creativity and connection.

For the Miami 2023 edition, the festival entrusted me with designing their campaign. Leveraging AI prompts, I provided art direction and created impactful visuals across multiple formats, including graphics for print, signage, and social media. I also oversaw print management to ensure seamless execution. The work encapsulated the festival's dynamic energy, elevating its presence and engaging its diverse audience.

Spirit Loft

Movement for Life

Spirit Loft Movement Centre is a vibrant space founded in 2011 by former CFL receiver and Grey Cup champion Andre Talbot and movement educator Catalina Moraga. The centre is dedicated to exploring human movement and potential while fostering a community that values education, growth, and connection.

As a long-time practitioner at Spirit Loft, I had the privilege of designing and developing their new brand and communications from 2019 to 2022. I created a cohesive visual identity inspired by their ethos, centred around two interconnected circles—symbolising movement and stillness, the pillars of their philosophy. This branding extended across signage, posters, social media visuals, and decals, ensuring consistency, and up-to-date communications, especially during the Covid-19 pandemic. Through comprehensive brand guidelines and thoughtful design, I crafted a visual language that reflects Spirit Loft's dedication to balance, growth, and community.

HOW TO FOLD A BLANKET WITH MINDFULNESS

We can approach any moment and any task with awareness, care and intention.

- 1 Take a moment to connect with your natural breath
- 2 Unfold the blanket completely and fold it down the midline from fringe to fringe side, ensuring it's wrinkle-free
- 3 Fold it in half a second time
- 4 Fold it in half a third time
- 5 Fold it in half a fourth time and place neatly in the cupboard
- 6 Smile and take another mindful breath

PLEASE PLAY HERE

Inti Labs

Fertility Care

Inti Labs is a company specialising in advanced diagnostic services for IVF testing, supporting individuals and couples in their fertility journey with precision and care. Their mission is to combine cutting-edge technology with compassionate communication, offering reliable insights for reproductive health decisions.

In collaboration with the Montreal agency Anderson Pidgeon, I played a key role in shaping Inti Labs' brand identity and digital presence. This included designing a professional and empathetic logo, crafting detailed brand guidelines to ensure cohesive communication, and developing a user-friendly website that highlights their expertise and mission.

Additionally, I created social media visuals and marketing collateral that resonate with their audience, positioning Inti Labs as a trusted leader in IVF diagnostics. This comprehensive approach brought their vision to life with a polished and approachable aesthetic.

Years: 2022-2024

Including: Brand Creation - Brand Guidelines - Collateral - Social Media Visuals - Website

to help refine the fertility journey*

MIRA

HOME

ABOUT

MIRA

RESOURCES

CONTACT

ACCURATE

MIRA™ provides actionable results in over 99% of first biopsies, so patients and healthcare providers can be confident that they're getting the information they need in a timely manner.

SENSITIVE

MIRA™ can process smaller quantities and lower-quality tissue samples, meaning a less uncomfortable biopsy procedure for patients.

PRECISE

MIRA™'s 100 miRNA biomarkers target over 600 endometrial receptivity-related genes to accurately identify the optimal time for embryo transfer.

INTI LABS SOLUTIONS |

Inti's pioneering miRNA-based endometrial receptivity test is used during the pre-implantation stage of in vitro fertilization (IVF) to enhance and personalize a patient's treatment.

HOW DOES MIRA™ HELP HEALTH CARE PROFESSIONALS?

We support healthcare professionals worldwide in their efforts to deliver fast and reliable results. Our solution provides valuable insight during the IVF treatment cycle to ensure the best care possible for patients.

[LEARN HOW](#)

HOW CAN FAMILIES USE MIRA™ IN THEIR FERTILITY JOURNEY?

We work to stay at the forefront of the issues families face when undergoing IVF. We partner with local healthcare professionals and service providers to provide the best solutions to patients.

[FAQ'S](#) |

SPACING |

The logo must always be legible and unobstructed. The clear space around the logo has been set up accordingly.

The size of the exclusion zone should be half of the X width that is shown on the right.

This amount of spacing is necessary to ensure the logo has enough breathing room and remains an ideal representation of the brand.

The minimum size for print and digital are also outlined on this page. Please ensure the logo never goes below this size. Only use the minimum size if absolutely needed.

Print Minimal Width Size: 40mm

Digital Minimal Size: 110px

ICONS |

Our icons are used across different brand touch points from marketing, to environment, to product. They provide symbolism, conceptual clarity, and visual interest in simplistic shapes and forms.

While this is simply an example, other icons should maintain the simplicity with sharp edges and a lighter line weight as these examples shown, with as much relevance as possible to the subject matter.

Designed by Woulfe

Interior Design

Designed by Woulfe is a prestigious London-based interior design studio, renowned for creating bespoke, luxurious interiors for private residences, show homes, and commercial spaces since its inception in 2009. With a commitment to impeccable craftsmanship and innovative design, the studio has built a reputation for transforming spaces into sophisticated, high-end environments.

In 2015, I had the privilege of working with Designed by Woulfe as the sole designer to develop their brand identity. I crafted a refined and timeless visual identity, including a logo that has become synonymous with prestige in the industry. The logo has stood the test of time, remaining fresh and impactful without losing its relevance. Additionally, I created brand guidelines, graphics for print, signage, and social media visuals to ensure consistency and elevate the studio's presence across all platforms. These elements contributed to the studio's continued success and the recognition they've received through numerous accolades for their exceptional, high-end designs.

DESIGN

A Beloved Family Home

We undertook a full home renovation for this prime property in West London's Notting Hill. Our clients were an American couple residing in London with their three-year-old twin boys. With their hectic but home-oriented lifestyles, they wanted the interiors to feel like an inner-city sanctuary that was as luxurious as it was comforting while providing the perfect environment to create beautiful memories as a family and when entertaining guests. The chic white drawing room displayed a rich mixture of organic textures and materials and provided a calming inner-city oasis with plenty of living botanicals.

AskMen

Men's Lifestyle

AskMen is an online, free-to-view magazine that focuses on men's health, lifestyle, and entertainment. As the Interactive Designer for BrandFusion Studios, the in-house advertising team of AskMen from 2015 to 2017, I played a key role in integrating branded campaigns within the AskMen website, collaborating with a variety of brands to enhance the site's content and reach.

I led the design for branded content, including conceptual design and UI layout. Working closely with video teams and product, commerce, and editorial departments, I developed native content that resonated with readers, creating responsive designs for dedicated content hubs. Additionally, I was responsible for the design, development and analytics of rich media native ads, which played a crucial role in the website's monetisation efforts. My work spanned across design, animation, art direction, front-end development, and photo editing, contributing to the success of branded content on the platform.

Years: 2015-2017

Including: Advert Design - Animation - Art Direction - Analytics - Front End Development - Logo Design - Photo Editing - Website

The logo is centered on a white circle with a dark blue border. The text 'askmen+' is in a blue sans-serif font, and 'essential' is in a blue italicized sans-serif font. A small red circle with a white plus sign is positioned to the right of 'askmen+'.

The Design Factor

Integrated Design

The Design Factor is a renowned multidisciplinary design studio in Belfast, celebrated for its innovative approach to product, graphic, and 3D design. I spent 6 years at the studio, leading design projects for interactive multimedia, websites, environmental product solutions, food packaging, and interfaces for healthcare and security.

I played a key role in managing projects end-to-end, from client meetings and concept development to production and final delivery. My contributions extended to brand creation, front-end development, packaging, and print management, ensuring cohesive visual identities. A hands-on approach and strong communication skills helped me deliver exceptional results and foster lasting client relationships.

Setting the new standard
in catalyst testing

Welcome to **cat·age·n**

The New World Leader in Catalyst Testing

labcat[®]
20g/sec flow

This revolutionary product family artificially, accurately and highly-efficiently recreates engine exhaust gas composition, flow rates and temperatures to provide safe, repeatable catalyst testing and aging

Catagen's testing and aging solutions deliver significant reductions in operating costs with an increase in testing flexibility and agility.

With full installation, operational training and technical support provided by Catagen's expert

Digital Surgical Specimen Radiography System

BioVision by Faxitron®

Improve the standard of care for patients undergoing surgical excision or biopsy procedures with BioVision, the intraoperative breast specimen imaging system designed to provide immediate verification of excised breast tissue margins.

BioVision Features

Best-In-Class Image Quality

BioVision's proprietary image processing software includes peripheral equalization and calcification enhancement, resulting in superior diagnostic images. Magnification levels of BioVision can facilitate up to 20 lp/mm resolution images.

Innovative CMOS Technology

The proprietary detector in the BioVision system delivers superior resolution to mammography systems, and was designed to accommodate large specimens.

Automated, Accurate Image Measurements

Automatic Exposure Control (AEC) optimizes image quality and automatic position detection provides geometric magnification and accurate measurements at any specimen level.

Reliable and Simple Data Transfer

The BioVision system can send multiple annotated images to PACS at the touch of a button.

Infection Control

A single continuous keyboard surface enables easy cleaning and disinfection.

Customized X-Ray Tube

A molybdenum target allows for imaging of breasts with greater density.

Easy to Use

No additional training or specialized x-ray requirements are needed to operate BioVision. The system plugs into any standard A/C outlet or can operate stand-alone for more than 3 hours on battery backup.

Ergonomic Design

The minimal footprint and elegant form of the BioVision system was designed to optimize mobility and minimize intrusion in your OR.

say hello! at Laser World of Photonics

Belfast *Who?*

Originally from Belfast and now calling Montréal home for nearly a decade, my design journey blends these two cultures, merging Belfast's resilience and storytelling heritage with Montréal's vibrant, diverse creative scene. This fusion inspires thoughtful, culturally aware, and visually engaging designs that resonate on multiple levels.

I hold a BSc Honours in Interactive Multimedia Design from Ulster University and have worked across fields including Lifestyle, Architecture, Healthcare, Security, Finance, Politics, and Nicotine and Vaping products—in both French and English. Known for blending imagination with practical, innovative solutions, I bring a distinctive, consistent touch to each project.

With expertise spanning print, digital design, social media content, web development, and copywriting, I adapt to any medium with ease. As a communicator, I foster a collaborative environment where people feel heard and valued, laying the foundation for strong relationships and smooth project execution.

I approach everything with a positive attitude, which fuels my creative problem-solving and resilience, especially during challenges. My positivity is contagious, creating a motivating environment that encourages collaboration and brings out the best in everyone.

What *They Say?*

"Daniel is an absolute pleasure to work with. Not only is his aesthetic second to none, he is astiduous and always ready to learn and expand his skill set."

"Daniel showed great programming skills, matched with an excellent eye for design. He is innovative, hardworking and eager to learn. Daniel is an excellent communicator, dealing with clients directly on a daily basis. On a personal note, he was also a great workmate, being honest, cheerful and very positive."

"Daniel is creative, dynamic and organised. He is passionate and his positivity is really contagious."

"It was fun seeing ideas come to life with Daniel's vision, aesthetics and graphic design expertise which he applied across traditional and digital channels. Daniel has showed great expertise in design, and an ability to quickly grasp briefs and think of creative ways to solve different design challenges."

"Daniel demonstrated commitment and creativity across a variety of complex briefs, working independently and as part of a wider team seamlessly. I would recommend him to any future employer looking for solid design and creative delivery within the traditional and digital space."
